Sub: Request to send a patent copy and so on.

Dear Sir,

I am Dr K.Rajagopal, Scientist from Institute of Microbial Technology, Chandigarh, India. During the year 1999 Dec 23<sup>rd</sup> we filed a patent Titled as "NOVEL CLOT-SPECIFIC STREPTOKINASE PROTEIN POSSESSING ALTERED PLASMINOGEN ACIVATION CHARACTERISTICS AND PROCESS FOR THE PREPARATION OF SAID PROTEINS" and the inventors as GIRISH SAHNI, RAJESH KUMAR, CHAITI ROY, KAMMARA RAJAGOPAL (SELF), DEEPAK NIHALANI, VASUDHA SUNARAM, MAHAVIR YADAV. Later which was abandoned on Sep 26<sup>th</sup> 2001 (the application no. then was 09/471,349). The presently existing application no is **09/940,235 is current and valid upto Jan 16<sup>th</sup> 2010**. The new patent no today is **7163817** dated Jan 16<sup>th</sup> 2007. As my name was existing in the beginning of the patent filing and so on. Now, I would like to have the copy of the final patent no **7163817** dated Jan 16<sup>th</sup> 2007. So, I request you please kindly issue me a copy of the above said final patent, number as given above. I also request you please kindly, if possible furnish all the patents related to this invention by our group. The patent can be delivered to the following address (by Fed Ex) as early as possible. I appreciate you, if you can consider this job as an urgent.

I am here enclosing a copy of the patent filed in the year 1999, Dec 23<sup>rd</sup>, where I am inventor, Kammara Rajagopal. **Also I would like to request you please kindly issue the information related to the names of inventors included during the marketing of the invention.**

As you can see the claims of the patent, claim 4, DNA segment of Clot specific streptokinase (CSSK), Claim 5: Expression vector containing DNA segment, Claim 6 and Expression host either Eukaryotic or prokaryotic. Recently, the project leader Girish Sahni and Kammara Rajagopal, has transformed the CSSK gene which is already patented (Claim 1 of this patent) into *Pichia pastoris* (yeast expression plasmid) and makes a new agreement with the same company (nostrum) and sells the technology without including the names of earlier patentees such as Kammara Rajagopal, and also not giving any royalties after selling the technology. I request you pl. kindly let me know is it a patent infringement case or not. If you don't mind you can give suggestions what to be done further.

Also as I understand my name kammara Rajagopal, is missing when this was marketed. I would also like to know whether my name is included or not when it is marketing .if so who are the people included?

*K. Rajagopal*
